## City showing favoritism?

**Not fair.** I'm calling about the new business at 127 E. Tampa Ave. I'm a business owner and I have to follow and get appropriate permits for any changes that are made to my office; and yet, I just found out by calling the building department that there have been no permits made on the renovation of this property. This property has been undergoing renovation during the weekends. There's apparently been several reports that have been called into the city, but the city and the city manager have apparently decided to ignore these because I just drove by there and the business is alive and well at this location. It doesn't have anything to do with the type of business that this is, this has to do with making things fair for all businesses and all people who reside in the city of Venice. So, it's just not fair. Something needs to be done about this, and I think some heads need to roll.
